Who are we?

Combining our creative, seamless and interactive technology skills, we have managed to become one of the most successful tech firms in the country. Our focus has been providing value for our Customers.

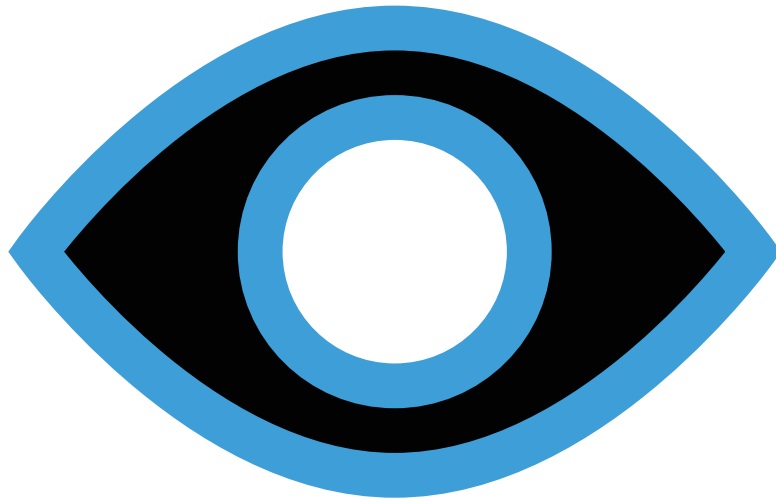

Our foundation began with partnering with already existing firms which put us ahead spanning over 10 years of experience in the following:

Web Design and Development, Application design and development, Social media management and digital marketing.

Today we are working with a fully pledged team to help grow with our clients at the right time.

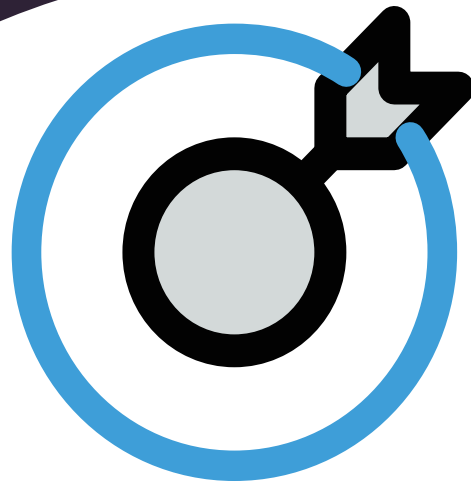

Our Vision:

In the competitive global market place, to become a leading performer in providing efficient(modern, responsive, customer engaging, robust, reliable) Web and Mobile Application based solutions to problems in our modern society.

Our Mission:

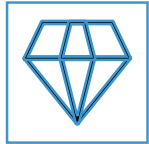

To help our customers build their businesses via creative design, development, and delivery of market-defining technology solutions that provide value and a stable competitive advantage.

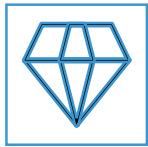

Values:

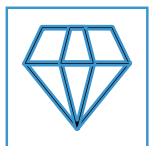

Integrity

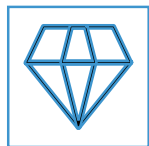

Innovation

Teamwork

Trust

Leadership
